What we do

Problem

- The UN Charter guarantees every child's right to: development, protection, participation and survival
- Many of India's 400 million children do not have access to these basic rights

Our Approach

- We work with grassroots Projects to restore children's rights
- We help solve critical issues like education, healthcare, child labor, child marriage & gender discrimination

Why it matters

Change Can Happen

Learn about children like Naveen, who went from a child laborer

to an eco-friendly inventor and national award winner.

We're In It Together

Meet Nishant and Pawan who lead the CRY Student Chapter in Raleigh, NC. When we all do our little bit, we generate change.
